

# Bibi Harusi body scrub

Derived from the rich Swahili culture, this exquisite treatment is designed to prepare the bride's skin for her big day, and we're thrilled to bring this cherished tradition to you. This treatment is specially tailored for honeymooners, wedding anniversaries, and wedding proposals.

Crafted with meticulous care, our Bibi Harusi Body Scrub is a blend of extraordinary ingredients, including cloves, coconut milk, fragrant jasmine flowers, aromatic sandalwood, turmeric, and soothing rose water.

Upon arrival, you'll be warmly greeted by our skilled therapist, Mariam. She will lovingly envelop you in a traditional Kanga fabric. The Harusi Body Scrub experience unfolds on a Mkeka, where the therapist prepares the exquisite mixture right before your eyes. You'll feel a connection to the timeless rituals of the Swahili bride as the scrub is applied to your skin with the utmost care.
